AutoCAD [32|64bit]

One way to measure software is the number of users, so we have used AutoCAD's active user base as a measure of its adoption. Adoption of AutoCAD, by platform 2019 Estimated Active Users of AutoCAD* by Platform Users Percent Microsoft Windows 35,490,965 35% macOS 27,254,370 28% Linux 25,208,507 27% Android 3,767,432 4% iOS 2,000,000 2% Windows Mobile 751,411 1% Blackberry 498,289 1% Android Tablet 641,524 1% Web Viewing apps 221,756 1% *see note at end of article We can now compare the number of active AutoCAD users on each platform, to compare how the adoption rate has changed over time. If we compare just the Windows users from the previous graph (red dots), the percentage of Windows users has declined from 93% in 2019 to 87% in 2012. However, we can use both figures, to get a better sense of the adoption of AutoCAD by users. Adoption by type of user We can now compare adoption rates by type of user. The percentage of users of AutoCAD by user type 2019 Estimated Active Users Percent Desktop Users 20,398,859 25% Individual users (non-corporate) 18,545,044 22% Corporate Users 7,867,045 9% Consultants/Auditors/Engineers 5,879,208 7% Students/Trainees 4,721,888 6% Teachers/Professors 3,666,943 4% Engineering Designers 2,744,575 3% Contractors 2,096,811 2% Mature students 1,347,065 1% Maintenance workers 1,023,052 1% Office workers (Total) 975,523 1% Total
