Development Roblox was started by David Baszucki and Erik Cassel in February 2004, following their quit from CMU. The first version was released in January 2005. The first major addition to the engine was the spatial model and terrain renderer in 2006, after the company was redubbed from Neustar Networks after they hired Erik Cassel as a programmer. The first publishing and real-time communication tools were released in 2008.

Roblox's first game was an in-house game called Questy (the first game to use Lua). A major redevelopment was completed in March 2011, which added support for multiple platforms. Early in the 2010s, the platform experienced a period of rapid growth. This growth was enhanced by the success of the Roblox Movie in June 2012, which was the first major release to use the new rendering engine as well as the new scripting language. The movie was a success and saw increased activity. The
